FOUR NIGHTS OF WORK SCHEDULED ON I-293 IN MANCHESTER
WILL REQUIRE LANE CLOSURES FOR NEW TRAFFIC PATTERNS

The New Hampshire Department of Transportation announces night construction work is scheduled to begin on Sunday, June 29, 2003 on the Interstate 293 improvement project in Manchester.

This night work, which will involve moving concrete barriers and pouring a concrete deck on the eastbound I-293 bridge over Brown Avenue, will take place evenings from 9:00 PM until 5:00 AM for four nights through July 2.

Lane closures will be necessary in order to complete the work. Warning signs and State Police will assist motorists through the work zone.

George Cairns and Sons, Inc. of Londonderry, New Hampshire is the prime contractor for the \$13 million project, which is scheduled to be completed in 2004.
